

logitech

COMFORTABLE COMMUNICATIONS EVERY DAY.

Logitech USB Headset H570e

Stylish and durable, Logitech® H570e Headset delivers comfort day after day. Acoustic echo cancellation and digital signal processing (DSP) block out unwanted noise for clear conversations in the open space.

The stylish, lightweight design and durable materials mean you can wear the H570e all day. Leatherette ear pads, and a padded headband with metal reinforcement provides strength and flexibility, with a fit that's just right.

The H570e Headset connects to a PC or Mac® via its USB cable with no additional software required. Plus, advanced business certifications ensure a seamless meeting experience with any video conferencing application.

Logitech USB Headset H570e

FEATURE SPOTLIGHT

Padded, metal-reinforced headband

Durable and adjustable padded headband can be worn comfortably all day while metal reinforcement provides strength, flexibility and "just the right" fit.

Replaceable leatherette ear pads

Built with high quality materials so the headset remains comfortable during long hours of use. Plus, the leatherette ear pads can be easily cleaned and are conveniently replaceable.

Inline controls

Convenient access to all call controls: volume up/down, microphone mute and call answer/end¹.

Designed for Business

Ensures enterprise-quality audio and an integrated experience with most all business-grade video conferencing platforms.

Incoming call indicator

LED flashes with incoming calls¹, providing a convenient visual cue to answer the phone.

Digital Signal Processing (DSP)

Enables precise tuning for both the mic and speaker so conversations are more life-like.

Acoustic echo cancelation

Blocks unwanted noise coming from the speaker from entering the mic path.

Noise-cancelling microphone

Blocks out distracting ambient noise from the surrounding environment.

Dynamic equalizer

Automatically switches between voice and music modes, delivering the best sound quality for what the user is listening to.

Wideband audio

Hear and be heard in true wideband audio, ensuring those on both sides of the call enjoy a life-like listening experience.

Logitech Sound Protection

Designed for protection against sounds above 115dBA to deliver exceptional listening comfort for voice and music; compliant with EN60950-1.

Flexible microphone boom

The boom rotates up and down and can be bent in or out to enable optimal placement for voice pickup.

Stylish, lightweight design

Durable, lightweight materials provide a contemporary, stylish look.

Plug-and-play USB connectivity

Easily connects to a PC or Mac with no additional software required.
